

For over 20 years Plasticase has been providing carrying and transport solutions to professionals, technicians and sportsmen around the world. As a leader in injected molded cases, Plasticase manufactures cases that are unequal in quality, performance and style.

NANUK cases are designed to protect the most sensitive equipment in the harshest environments. Whether battling the scorching heat of the Sahara desert or the bone chilling cold of the arctic, every detail of NANUK has been refined and perfected to offer the utmost in protection and performance. From our high-impact NK-7™ resin to our PowerClaw™ latches, NANUK has been engineered and manufactured to stringent military specifications to surpass the needs of the most demanding users. These virtually indestructible, lightweight, watertight cases offer the ultimate grade of protection in a variety of sizes, configurations and colors.

Complemented by a large selection of optional accessories and an incredible degree of customizability, NANUK is the best choice to move your equipment in complete security. Whether transporting valuable equipment around the world or simply protecting sensitive tools in the urban jungle, NANUK is up to the challenge.
